Serial numbers: Each title is identified by a three-part serial number. The first part of the serial number designates the sales list in which the title was first announced. The second part indicates the agent of publication, i.e. the museum, gallery or organisation that was responsible for the publication of the catalogue. Born as an Alsation I belong as well to the French as to the German Culture Area. As a Pioneer of Concrete Art I owe a great deal to America which for many years has been sympathetic to my work.

Plastic Art needs no words. Its language is international. . . . Human transformations and myths are our contemporary creations. May they speak to all nations and contribute that Hate will be transformed into Understanding and the myth of Eternal Peace becomes a Reality.
